- Strong understanding of TCP/IP, routing, and switching protocols.
- Experience with network equipment's, Cisco or other vendors
- Knowledge of network security principles and best practices.
- Familiarity with network monitoring and troubleshooting tools.

### Soft Skills

Great Communication Skills

Team Collaboration

Prioritizing tasks and meeting deadlines

Flexibility to change

## EXPERIENCE

Frontend Developer

May 2021 – Oct 2021

Codeware

Ikeja, Lagos

- Achieved a 10% growth for Codeware by implementing responsive design, optimizing website performance, and enhancing user experience through intuitive interfaces and smooth navigation.
- I was part of the team at Codeware that led the redesign of their website. Our efforts resulted in a significant 15% improvement in conversion rates. This was achieved through the implementation of a user-centric design approach, streamlining the checkout process, and enhancing product showcases with interactive elements.

Network Engineer

March 2017 – June 2023

Lekaton Technology

Ekololu, Lagos

- Achieved a consistent 25% improvement in network stability and performance for various clients, including companies like GTB, Elizade Toyota PLC, Dataflex, and Tincan Shipping Company. This was achieved by expertly configuring LAN cables, replacing modules with standard configurations, and troubleshooting switches from various brands, including Cisco.
- Led successful network infrastructure deployments and upgrades at multiple client sites, resulting in significant improvements in network reliability and efficiency. This included installing and configuring patch panels, switches, routers, and access points to meet the specific requirements of each organization.
- Developed comprehensive network designs and configurations for clients, incorporating advanced routing protocols, VLAN configurations, and security measures. These designs were implemented using a combination of Cisco switches, routers, and access points to ensure optimal network performance and data security.

## **PROJECTS**

---

**Realtor Website.** Built a realtor web application for property listing by using Tailwind, React.js and Firebase. The realtor app allows users to search for properties based on specific criteria, such as location, property type, price range, number of bedrooms, and more.

**University Web-App.** Developed a university web application using React.js, providing students with an intuitive platform to explore a diverse range of university programs and browse through various courses offered. ([Try here](#))

**Banking Website.** Developed a dynamic banking website using HTML, CSS, and JavaScript, offering users a convenient platform to request loans and perform secure fund transfers. ([Try here](#))

**Fitness Website.** Created a fitness website using React.js, providing users with a seamless browsing experience of diverse fitness programs and empowering them to subscribe. ([Try here](#))

## **EXTRA-CURRICULAR ACTIVITIES**

---

Crafting social media posts actively viewed by over 10k+ individuals weekly for all aspiring web developers

## **LEADERSHIP**

---

Lead Instructor, Leadwinn Academy

- Guide and empower teenagers on their path to becoming skilled web developers as one of the lead instructors at Leadwinn Academy.
